8 Tips for Better Underwater Navigation | Scuba Diving Good navigation starts before you even get in the water. If you and your buddy are diving independently, get a thorough site description and a map, if possible from a local dive shop or other divers at the site. Navigation By the Numbers: How to Use a Compass | Scuba ... Compass Basics. The dive compass (Photo One) is a waterproof instrument used by divers to navigate above water, on the surface and at depth. It determines direction by means of a free-rotating, magnetized needle that always points toward magnetic north. Diver navigation - Wikipedia Diver navigation, termed "underwater navigation" by scuba divers, is a set of techniques including observing natural features, the use of a compass, and surface observations that divers use to navigate underwater.

How To Use A Compass Underwater | Scuba Diving Blame the fact that compass features aren't universal, then blame the way most of us scuba dive--blindly following a dive guide or relying on natural navigation cues. On top of all that, a compass is harder to use under water because it has to be held level and steady. Navigation: Scuba Schools International: 9781597500128 ... Fulfillment by Amazon (FBA) is a service we offer sellers that lets them store their products in Amazon's fulfillment centers, and we directly pack, ship, and provide customer service for these products. Underwater Navigation How To Use A SCUBA Compass The most commonly used SCUBA navigation device is the compass. All divers have one and should carry it with them whenever they descend into the abyss. We all know that there is no such thing as an.
